# HEALTHTECH startup ecosystem in Latvia

Startup Latvia

# #HealthTech

The fields of biomedicine, medical technology, biopharmaceuticals, and biotechnology are collectively referred to as health technologies, as they all have one main overarching goal - the application of knowledge and skills to solve health problems and improve the quality of human life. Health technology knowledge and skills are applied in medical technology devices, medicines, vaccines, technological procedures, and systems.

# Universities and clinical university hospitals:

UNIVERSITY  
OF LATVIA

RIGA TECHNICAL  
UNIVERSITY

EUROPEAN UNIVERSITY  
OF TECHNOLOGY

RĪGA STRADIŅŠ  
UNIVERSITY

Bērnu klīniskā  
universitātes  
slimnīca

RĪGAS AUSTRUMU KLĪNISKĀ UNIVERSITĀTES SLIMNĪCA

PAULA STRADIŅA  
KLĪNISKĀ UNIVERSITĀTES  
SLIMNĪCA

# Research centers and organizations:

Institute of Food safety, Animal Health and Environment "BIOR"

Latvian Biomedical Research and Study Centre

Latvian Institute of Organic Synthesis (LIOS)

Baltic Biomaterials Centre of Excellence

Bioreactors

The Association of the Latvian Chemical and Pharmaceutical Industry (LAKIFA)

AmCham

Biocatalyst

# STARTUPS

Startup	About	Sector	Business Model	Year Founded
AIMUNO	Is a biotech start-up focused on developing an integrative biomarker to distinguish between potential responders and non-responders to checkpoint inhibitor immunotherapy among Non-Small Cell Lung Cancer (NSCLC) stages III and IV patients.	HealthTech	B2C	2018
Alternative Plants	Cellular farmers dedicated to make botanical ingredient production sustainable at scale.	BioTech		2017
Bdetect	Medical device company specialized in the research and development of skin cancer diagnosis products.	HealthTech MedTech		2021
Cellboxlab	We are developing PDMS free gut on chip suitable for anaerobic conditions necessary for microbiota cultivation controlled by integrated biosensors and user friendly cultivation system, low molecule absorption suitable for drug testing and compatible with mass manufacturing methods.	MedTech HealthTech BioTech		2020
Conelum	s a biotechnological startup founded in late 2012. Having the internationally well recognized microbiological safety scientists in our core team - we are focused on development of rapid microbiological diagnostic tests for food and drink industry companies.	BioTech HealthTech		2012
DoctoWell	Helps with day-to-day administrative, medical and clinical tasks so doctors can focus on their work.	MedTech HealthTech	B2C	2020
Exonicus	The main capability of Exonicus is the production of Modeling & Simulation visualizations in 3D virtual reality, specifically virtual reality simulations in military medical training.	VR MedTech		2018
eDoks	A digital document circulation solution that communicates, reminds and collects the necessary signatures from all parties	HealthTech		2018
